The Boston Home Dedicates "Serenity Garden" In Memory of Former Trustee Rebecca Faxon

Dorchester, Mass.—The Boston Home in Dorchester—a long-term-care facility that serves adults with multiple sclerosis and other progressive neurological diseases—recently dedicated its "The Serenity Garden" in the memory of Rebecca "Rip" Faxon. Faxon, a longtime resident of Milton, was a former trustee, active volunteer, and an avid gardener. Fifty guests including Faxon's family and friends, current and former TBH trustees, and former and current employees attended the celebration.

"We are delighted to honor the memory of Rebecca in this way. She was a dedicated trustee and friend who shared her passion for gardening," said Marva Serotkin, CEO of The Boston Home.

The Faxon children, Rebecca “Bexie” Faxon Knowles, Chestertown, MD and Naples, FL (formerly of Milton); Robert Faxon, Albuquerque, NM; and Sally Faxon Houlihan, Chestertown, MD and Naples, FL (formerly of Milton) also donated a set of outdoor furniture to The Boston Home in their mother’s memory.

The new “Serenity Garden” is part of an expansion and modernization project at The Boston Home. In addition to expanding the garden and making it more accessible for residents at TBH, other improvements include 12 new resident rooms, a new Activities Center, and an expanded dining room. Resident rooms have also been updated with advanced technology features.

Founded in 1881, The Boston Home is a 96-bed, not-for-profit, long-term-care facility that serves adults of all ages with multiple sclerosis and other progressive neurological diseases. The only facility of its kind in New England and one of a few in the United States, The Boston Home has earned a national reputation for providing progressive long-term care.
