FOR IMMEDIATE RELEASE:

The Boston Home Promotes Dorchester Resident Larry Cosom

Boston, Mass.—The Boston Home (TBH) in Dorchester—a long-term care facility that serves adults with multiple sclerosis and other progressive neurological diseases—recently promoted Dorchester resident Larry Cosom to Director of Plant Operations.

Prior to his promotion to Director of Plant Operations, Cosom served as Maintenance Supervisor at TBH for more than 13 years. He received a Facilities Management Certification from Northeastern University in 1998. He is also certified in the areas of electrical, mechanical, and HVAC repair and maintenance.

“Larry Cosom serves in a position that is one of the building blocks in the overall structure at TBH,” said Mark Williamson, Director of Human Resources.

Founded in 1881, The Boston Home is a 96-bed, not-for-profit, long-term-care facility that serves adults with multiple sclerosis and other progressive neurological diseases. The only facility of its kind in New England and one of a few in the United States, The Boston Home has earned a national reputation for providing progressive long-term care. For more information, visit www.thebostonhome.org.
